Our staff are trained to use many different approaches to teaching and learning so we can meet every child's needs, including those with SEND. Our SENDCo Mrs Allen has many years of experience supporting children with SEND and is in school every Tuesday, Wednesday and Thursday. If you tell us you are worried about your child, we will observe them closely and work with them to see what may be causing any difficulties. We will share with you what we find out and what we will do next.

Most children's needs will be met by high quality teaching in class by our staff. Some children need extra help to keep up with their peers and may be included in interventions. Fewer children will need a personal plan with targets which are monitored by the SENDCo. Very few receive individually funded support through an Education Health and Care Plan.

If your child is being monitored on the Special Educational Needs Register, we will let you know. You can expect to meet your child's class teacher once a term to discuss targets and support. If we think another agency could help us to meet your child's needs, you will be asked to give your consent.
